

# High Touch High Tech Summer 2025

flexible time slots

**\*WE BRING THE SCIENCE TO YOU\***

All equipment provided

## INDIVIDUAL PROGRAM VISITS

45-70 minute programs

A degreed scientist comes to you to conduct an exciting program!

### BIO BASICS

Feeling gutsy? Touch real brains and eyes! Try tricking your brain with optical illusions!

### CREATIVE CODING (recommended ages 7+)

Learn the basics of coding by taking BeeBot® through a self-created obstacle course!

### FOSSIL FUN

Touch real fossils! Model how fossils form, fossil rubbings, & take home a fossilized shark tooth!

### KNOCKOUT NATURE

Explore food chains, dissect owl pellets, observe the teeth of real skulls to learn predator/prey relationships. Touch LIVE BUGS.... If you dare!

### LIGHT FEVER

Experiment with prism glasses, shadow backdrops, mirrors, lenses, and a laser light show!

### MIGHTY MAGNETS

Learn the power of forces with magnetic cars, mazes, levitating rings, electromagnets & force fields!

### MISSION CONTROL

Blast off with water propulsion rockets as you become a human launch pad in this space exploration program!

*\*\*\*Program is weather dependent. If weather is not permitting, program will default to indoor Space program.*

### MOTION COMMOTION

Drive cars down tracks as we test potential and kinetic energy. Learn about forces and friction with wigglers, gears, tops, and gravity drops!

### SEA YA LATER

Explore ocean water and waves, discover creatures of the sea and take home a fossilized shark tooth!

### VOLCANOES

Explode with laughter as we mix chemicals to erupt volcanoes!

## WEEK-LONG HALF-DAY CAMP

9-12:30pm or 12:30-4:00pm

A degreed scientist comes to you to conduct S.T.E.M. fun!

Campers will explore a wide range of science subjects through hands on experiments. Most days include a take home experiment!

### \* PHYSICS DAY:

Campers will put their engineering skills to the test as they explore potential and kinetic energy. Learn about forces and friction with wigglers, gears, tops, and gravity drops! Experiment with prism glasses, shadow backdrops, mirrors, lenses, and a laser light show!

### \* BIOLOGY DAY:

On biology day, campers will explore food chains, dissect owl pellets, and observe real skulls and jawbones to learn predator/prey relationships. Feeling gutsy? Touch real LIVE BUGS, brains, and eyes!

### \* GEOLOGY DAY:

Take a trip into Earth's past and touch real fossils! Model how fossils form, create fossil rubbings, & take home a fossilized shark tooth! Explode with laughter as we mix chemicals to erupt volcanoes!

### \* ASTRONOMY DAY:

Campers become aerospace engineers as they blast off with water propulsion rockets and become a human launch pad in this space exploration program!

### \* ROBOTICS DAY:

Machines will take over as we build, program, and test our very own robots using Lego WeDo™ Robotics. Have fun with creative coding as we use Bee-Bot, Bloxels and more to explore the world of robots.

## VIRTUAL PROGRAMS

Science at your own pace!

Each program includes a kit w/ 2 experiments per student

Unique, standard-based, pre-recorded video content that can be viewed on ANY device & at ANY time!

By Grade: 2 videos approx. 15min. each

By Subject: 1 video 25-28 minutes

3 Extending the Lesson PDF's for content assessment & Science Kits with two HANDS-ON experiments for each student!

Check out our  
virtual programs

### VIRTUAL PROGRAM OPTIONS:

#### Tier 1

- \$35 per class for video content and supporting documents: Digital guided questions, Extend the Lesson, & Try at home

#### Tier 2

- Tier 1
- PLUS \$6 per student for corresponding science kits. Each kit includes 2 pre-packaged take home experiments for easy pass out!

#### Tier 3

- Tier 1 and Tier 2
- PLUS \$15 per class for an additional teacher led demo. (This demonstration is different from student experiments to further enhance the lesson.)

**MORE ON OUR  
WEBSITE**

**High Touch High Tech of Greater Atlanta**  
11205 Alpharetta Highway, Suite H3  
Roswell, GA 30076

## Choose From 3 Options!! Perfect for ages 4-11 yrs old

### Individual Visits

**We can visit once, twice, or every week!**

#### Individual Themed Program Prices

In-House Program Prices  
(max 25 students per session)

#### **70-Minute Programs**

one 70-minute program – \$345  
two 70-minute programs – \$395  
three 70-minute programs – \$475  
four 70-minute programs – \$555

#### **45-Minute Programs**

two 45-minute programs – \$350  
three 45-minute programs – \$380  
four 45-minute programs – \$410  
five 45-minute programs – \$440

Program times can be adjusted.  
Teachers and chaperones participate  
free of charge and must always be  
present.

*\*travel fee may apply to certain locations*

### Week-Long Half-Day Camp that comes to you!!

**\*BEST Value option!!\***

Host "SPECTACULAR SCIENCE"- our  
week-long half-day Science Camp  
at your facility for 5 days of hands  
on "edu-tainment"!

#### **Time options:**

**9am-12:30pm or 12:30pm-4:00pm**

(time includes 30min brain break)

**\$155 per camper**

\*Must book a minimum of 15 campers per  
three-hour time block. If less than 15  
campers, minimum fee of \$2,325 applies.

\*Adult host representative must be  
always present and responsible for brain  
break portion.

### Virtual Programs

**Pre-Recorded Video Lessons  
with science kits**

Can't have visitors? Book a virtual  
program or 5 for a virtual camp!

Each program includes a video  
lesson covering a science subject  
and kit per student containing 2  
experiments. Kits are individually packaged  
for easy distribution

**\$35 per class size of 25 + \$6 per  
student kit**
